

aria QUICK START GUIDE

What's in the box • What you will need • Quickstart • Optional Accessories

WHAT YOU WILL NEED:

- 1 Deviceroy Aria**
Your device can be powered by either USB or Ethernet (PoE).

The same cable can also be used for data, or you can use separate cables for power and data, depending on your use case.
- 2 Data/Power cable**
 - USB-C to USB-A shielded cable for power and/or data, included.
 - Cat 5/5E/6 Ethernet cable for power and/or data, optional.
- 3 Compatible power source**
 - USB
 - Power over Ethernet (PoE)
- 4 An iPhone, iPad, or Mac Silicon compatible with the latest iOS version.**
- 5 Before starting, go to backstage.deviceroy.com**
 - Create account
 - Confirm email
 - Create organization (optional - create roles and invite other team members)
- 6 Deviceroy Nexus Mobile App from the App Store.**

QUICKSTART:

- A Determine your power source:**
Power over Ethernet (PoE) or USB-C.
- B Determine your data interface:**
Ethernet, RS-485, or USB-C (**Fig. 1**).
(Note: If your power source is the same as your data interface, you will only need one cable. Otherwise you will need two cables)
- C Determine an install location.** Aria will have the best range if the antenna is pointed directly up or down.
- D Confirm that the antenna is finger-tightened snug, but not overtightened.** This is an electrical connection, not a bolt! (**Fig. 2**).
- E Connect the data cable to Aria and your device (**Fig.3**).**
- F If you are not powering the device from the data cable, connect the power cable after the data cable is connected. When power is connected, the LED status light will activate on the Aria (**Fig. 4**).**
- G Go to backstage.deviceroy.com and follow the steps for creating a new account. Be sure to confirm your email address and create an organization.**
- H Open the Deviceroy Nexus app, log in with your Backstage credentials (Step G), and follow the steps to add a new device (**Fig. 5**).**

OPTIONAL ACCESSORIES:

- Cat 5/5E/6 cable
- Shielded antenna extension cable (different lengths, 1.5/3 ft)
- Antenna mounting kit

FCC NOTICE

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference receive, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio / TV technician for help.

CHANGES OR MODIFICATIONS NOT EXPRESSLY APPROVED BY THE PARTY RESPONSIBLE FOR COMPLIANCE COULD VOID THE USERS' AUTHORITY TO OPERATE THE EQUIPMENT AND MAY VOID ANY ASSOCIATED WARRANTY.

Industry Canada

This Class B digital apparatus meets all requirements of the Canadian Interference Causing Equipment Regulations.

Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation.

Cet appareillage numérique de la classe B répond à toutes les exigences de l'interférence canadienne causant des règlements d'équipement. L'opération est sujette aux deux conditions suivantes: (1) ce dispositif peut ne pas causer l'interférence nocive, et (2) ce dispositif doit accepter n'importe quelle interference reçue, y compris l'interférence qui peut causer l'opération peu désirée.
